

## YOUR PATH TO THE FUTURE

Science • Technology • Engineering • Math

**OVER 5 YEARS**  
TRAINED 1000 STUDENTS  
IN DUBAI & INDIA

### BY 2025, 65% JOBS WILL BE IN STEM FIELD

Passionate industry experts and education leaders from around the globe have come together to provide unique and effective way of learning.

### WHAT MAKES US UNIQUE?

Vision • Dedication • Professional Integrity

Passion • Qualification & Experience

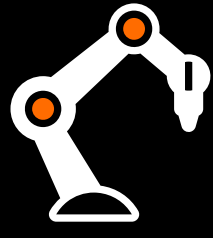

#### DIY ELECTRONICS

Children become designers, inventors, problem solvers and creators; by fun and easy to use electronic bits that snap together to make a complete circuit.

#### 3D PRINTING

Children learn how to design 3 dimensional objects, which gives them a tangible learning experience on projects which can be examined in real time.

#### ROBOTICS

A robotic system designed from the ground up to provide an opportunity to future engineers of all skills levels. It is designed to promote early innovation in order to facilitate a sustainable future.

#### ENGINEERING

Discover how multitudes of different components allows continuous creation of new models with innumerable possibilities for variation. From wind mills, to hydraulic machines – everything combined offers learning without limits!

#### CODING

Through coding children learn important strategies for designing projects and communicating ideas. Coding trains children in computational thinking-resolving problems analytically and logically.

### WHAT'S IN IT FOR THE STUDENTS?

#### CREATIVE LEARNING

Combining Art with Science hones the comprehension skills and rational thinking of children.

#### PREPARING FOR THE FUTURE

STREAM provides kids with the right knowledge base, combined with traditional education making them future-ready

#### GLOBAL COMMUNITY

STREAM enables children to interact and compete with their peers from across the world by way of various international competitions and exhibitions.

### WHAT'S IN IT FOR THE SCHOOL?

#### STAYING UPDATED

Through STREAM education, schools can stay updated with the global trends in the fields of science and technology.

In addition to educational excellence, the school can also create a niche in the world of competitions and extra-curricular activities.

#### FEATHER IN THE CAP

#### ALWAYS A STEP AHEAD

With traditional jobs steadily getting outdated, STREAM education imparts knowledge on subjects that facilitate a school's pedagogic excellence, while promoting intuitive cognition amongst students which is reflected in their academic performance.
